

Warm-Up: 9/10/14

1. What special considerations should be taken into account in designing a ATR?
2. What 8 “areas” should be taken into account when designing a ATR?
3. How do you determine the minimum number of tables and WP needed in an ATR?
4. Where should the outlets be placed in the hydrotherapy (“wet”) area?

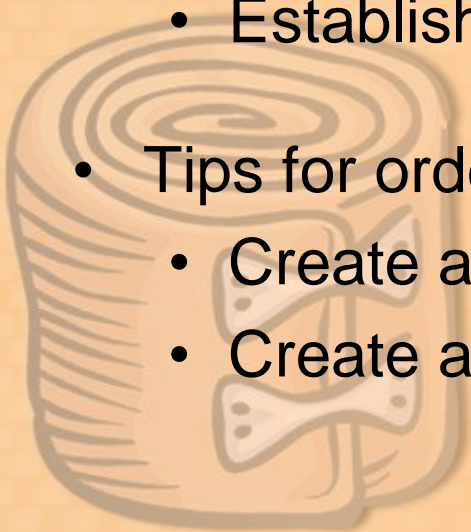

Today's Agenda: 9/10/14

1. Students will complete warm-up.
2. **TO: What standard supplies should be found in all ATRs?**
3. Students will play Athletic Training Room Scavenger Hunt.
4. Friday – you will have all class to work on the blueprint, construction budget, and supply budget.

Inventory & Budget

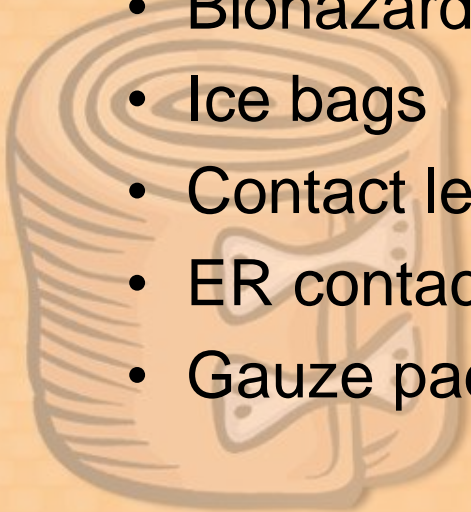

- Must have enough supplies to stock and use in a reasonable amount of time.
- This includes:
 - Tracking expiration dates
 - Identifying purchasing patterns
 - Establishing relationships with vendors
- Tips for ordering:
 - Create a list of consumable supplies (use once)
 - Create a list of nonconsumable supplies (reused)

Medical Kits: enables prompt treatment of athletes; come in many sizes (fanny packs to trunks)

- **Common Supplies:**

- 1" & 1 ½ " adhesive tape
- Analgesics
- Antibacterial cream
- Cotton-tip applicators
- 3 – 4 types of band aids
- Biohazard bags
- Ice bags
- Contact lens kit
- ER contact info
- Gauze pads
- Gloves
- Hydrogen peroxide
- CPR mask
- Roller gauze
- Saline solution
- Scissors
- Skin lubricant
- Thermometer
- Pre-wrap

Game Site Equipment

- Some supplies you need multiple of so that each practice/game site may have access to it.
- **Such supplies:**
 - Vacuum splints
 - SAM splints
 - Finger splints
 - Crutches
 - Spine Boards
